

WHO is ERION

The [Ethics and Research Integrity Officer Network](#) (ERION) is a thematic group within EARMA. It is an open community to discuss the practical and implementation side of Research Ethics and Integrity. ERION is closely working with the H2020 [SOPs4RI project](#) to promote institutional changes in research integrity for an effective implementation in research administration.

MEETINGS

The community meets 2 to 4 times per year online or physically in Brussels or other locations in Europe. Around 300 are members of the community and can connect, share best practice and engage in a dedicated EARMA Community Platform. To join the community platform, click [here](#).

TOPICS

Topics discussed in past ERION meetings included: Horizon Europe, Open Science, GDPR implementation, training (see [report](#)), ethics support in times of COVID-19, research evaluation and many others. More information on the [EARMA website](#) and [EARMA YouTube channel](#).

What is your professional experience with the ALLEA code if you could summarise in one or two words? Mentimeter
